

MBA - MASTER OF BUSINESS ADMIN (MBA)

MBA 600. Foundations of Business, Part 1. (2 Credits)

This course will review financial modeling, accounting statements, marketing strategy, and principles of management. The objectives include: review of skills and content necessary for success in the graduate program; development of a foundational knowledge base that will be shared by all new MBA students; and a skills refresher for students who completed business undergraduate degrees but have been out of school for a period of time. Must be completed during the first two semesters of enrollment. PREREQUISITE: Admission into the MBA program.

MBA 601. Foundations of Business, Part 2. (2 Credits)

This course will review analytical and quantitative skills, economic models, and basic computer information systems. The objectives include: review of skills and content necessary for success in the graduate program; development of a foundational knowledge base that will be shared by all new MBA students; and a skills refresher for students who completed business undergraduate degrees but have been out of school for a period of time. Must be completed during the first two semesters of enrollment. PREREQUISITE: Admission into the MBA program.
