

# **BASIC PROGRAMS OF STUDY**

---

All university academic programs include a component of general education. The area, course, and sequence requirements outlined on the "General Education Component (<https://catalog.una.edu/undergraduate/academic-procedures-requirements/general-education-component/>)" page represent the minimum core common to all general education components, and constitute the basic program of study for all regularly admitted undergraduate students. For specific program requirements, the student should refer to the particular degree and major field in "Colleges and Programs (<https://catalog.una.edu/undergraduate/colleges-programs/>)."

## **Declaration of a Major**

Students must declare a major as soon as possible but not later than following the completion of 80 semester hours.
